

GAMMA IOTA SIGMA

The Insurance Industry's Premier Collegiate Talent Pipeline

The wellbeing of the GIS community is our highest priority. With new developments and announcements related to COVID-19 emerging by the hour, we continue to evaluate the impact on all GIS-related events and operations through the end of the year. We are committed to responsible planning and swift action to safeguard the health of all stakeholders and the community at large.

Effective immediately, due to travel bans and school closures, we have made available our virtual platforms to our 5,000+ students and 90 schools to support the continuity of events as needed. We are also committed to maintaining open lines of communication and connection between students and the industry and to that end will be bolstering our virtual resource bank throughout the coming weeks. We are proud to be nimble, resilient, and a resource to both students and the industry.

Please contact us with questions or for more information. For definitive guidance and updates related to COVID-19, we urge you to reference the [World Health Organization](https://www.who.int) and the [Center for Disease Control and Prevention](https://www.cdc.gov).
